1. INTRODUCTION

1.1 Remote Control Key Guide

2. PROGRAMMING REMOTE CONTROL FOR TV DEVICES

Program the remote control to control your TV using by following five ways:

2.1. Code input programming

1. Turn on your TV you want to program to work with the remote control. Hold the remote control in a straight line in front of your TV in distance less than 1 meter.
2. Press and hold on the remote on the device

mode button and at the same time until the red light indicator lights up constantly.

3. According to your TV brand to find the TV code in the Appendix B, then enter the four digit code.

4. button will blink two times until and turn off.

Please press the to check the TV be turned off or not. If the TV remains on please follow the above steps 2-4 once more and enter the other four-digit of your brand until you find the appropriate code that make the device to be turned off.

Attention:

When your manufacturer has more than one code, you must note the codes and try them one by one. Find which of codes controls your TV and uses the most of functions and use that one.

Note:

If no keys is pressed within 30 seconds from

the moment the red light of buttons turns on, or one of other key other than number keys

has been pressed, the button will turn off and the programming process will be canceled.

Actions to verify correct programming

Once you have programmed the remote with correct code, check to see if most of the buttons are working according to the functions of your TV

Corrective Actions

If any of the buttons do not work properly, you can program those buttons individually by using the learning function process described in chapter 3.

2.2. Manual code search programming

1. Turn on your TV you want to program to work with the remote control. Hold the remote in a straight line in front of your TV at a distance less than 1 meter.
2. Press the remote device mode button

and button at the same time until the red light indicator lights up constantly.

3. Press the button or the button one step at a time until your TV turns off. Every

time you press or buttons the button will blink once.

4. When the TV turns off it means that the remote have found the correct code for your TV.

5. Press the button to store the code. The button light will turn off.

Note:
At step 3 you can hold down or button constantly until the TV turns off.

Attention:

When the TV turns off you must release the button immediately so that the remote won't go to the next code.

For this feature you can press to search forward

and to search backward the code libraries in the remote control. Given the size of the code libraries in the remote control, it will take several minutes to cycle through all the codes, after done, the remote will exit the search status automatically.

Actions to verify correct programming

Once you have stored on the remote the correct code, check to see if most of the buttons are working according to the functions of your TV.

Corrective Actions

If any of the buttons do not work properly, you can program those buttons individually by using the learning function process described in chapter 3.

2.3. Automatic code search programming.

1. Turn on your TV you want to program to work with the remote control. Hold the remote in a straight line in front of your TV at a distance less than 1 meter.

2. Press and hold down the remote device

mode button and button at the same time until the red light indicator lights up constantly.

3. Press the POWER button.

4. The button will blink continuously in red meaning that the remote is searching for the code of your TV.

5. When the remote finds your TV code the TV will turn off.

Attention: When the TV turns off you must

immediately press the button to avoid the remote to go to the next code.

6. By pressing the button you have already stored the code. The button light will turn off.

Note: This automatic search can be finished without finding an appropriate code for your TV.

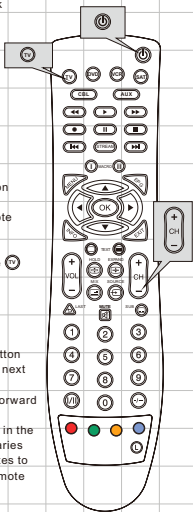

In that case the button will stop blinking and your TV will remain on. Given the size of the code libraries in the remote control, it will take several minutes to cycle through all the codes.

Actions to verify correct programming

Once you have stored on the remote control the correct code, check to see if most of the buttons are working according to the functions of your TV.

Corrective Actions

If any of the buttons do not work properly, you can program those buttons individually by using the learning function process described in chapter 3.

2.4. Brand code search programming

1. Turn on your TV you want to program to work with the remote control. Hold the remote in a straight line in front of your TV at a distance less than 1 meter.
2. Press and hold down at the same time the

button  and the number from 0 to 9 that the device button corresponds to the brand of the TV according to the brand search list in Appendix A. After the TV button LED lights up constantly, release the button.

3. After 2 seconds the  button will start blinking.
4. When your TV turns off, press the  button so that the remote store the code.

Attention: When the TV turns off you

must immediately press the  button to avoid the remote to go to the next code.

Note: This search can be finished without finding an appropriate code for your TV.

In that case the  button will stop blinking and your TV will remain on.

Actions to verify correct programming

Once you have stored on the remote control the correct code, check to see if most of the buttons are working according to the functions of your TV.

Corrective Actions

If any of the buttons do not work properly, you can program those buttons individually by using the learning function process described in chapter 3.

2.5. Programming other devices

To program other devices such as DVD, VCR, SAT follow the methods of programming described in Chapter 2.1/2.2/2.3/2.4

Note: The complete list of all devices codes is available at Appendix A/ Appendix B.

3. LEARN FUNCTION OPERATION GUIDE

The learn function on the remote control allows to program the keys one by one to learn behave like the original remote control of your device;

As an example, below is a method of programming a CBL using the learn function. Just follow the steps:

1. Press CBL  button one time
2. Press the learn  button for about 3

seconds until the CBL  button turn on in red color.

3. Bring the original remote opposite to the universal remote control and at a distance of 3 to 5 cm in such way so that the infrared windows are facing one another.
4. To continue press on the original remote that

you have for the CBL the key that you want to learn. Keep it pressed until the red indication

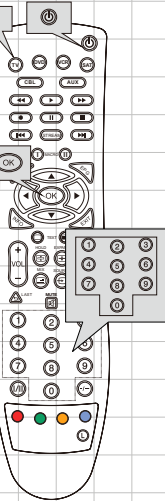

light on the CBL  starts blinking again. Then you can release the button.

5. Press on the key that you want to program and learn. The red indication light of the

CBL  and its function will already be learned to the Follow step 3 to 5 again for each button you wish to learn on the remote.

Note: If no key is pressed within 30 seconds the red light indication will blink twice and turn off.

During the learn process all buttons can be programmed except from learn, Macro button and the device mode keys.

6. If you have finished learning all the buttons you want and you need store all the

learned key data press the Learn  button. The red light indication on the CBL

 button will turn off.

Attention: If after the completion of the learn process you reprogram this particular device by putting a different device code all stored data will be reset and replaced with the new ones.

Actions to verify correct programming

Once you have programmed the remote using the learning function to check if all the buttons are working according with your programming by trying to control the CBL device.

Corrective Actions

If any of the buttons do not work properly, you can program those buttons again by using the same process described above.

Note: Learn function for other devices

If you want to use the learning function for other devices use the above guide and instead of CBL mode button choose another device button and continue with the same procedure.

Clear learn data for one button

Press and hold pressed at the same time one of device keys     and

 button. Then input number **9910**.

Press the button that you want to clear. The light will blink twice and button will be cleared.

Press sequentially all the buttons you want to clear.

Then press the Learn  button to go out.

Clear Learn data for one device

Press and hold pressed at the same time one of device key   and

 button. Then input number **9920** and all learned buttons for this device will be cleared, the light of the device key lights will turn off after blink twice.

Clear Learn data for all the devices

Press and hold pressed at the same time one of

device key     and  button. Then input number **9930** and all learned buttons for all devices will be cleared, the light of the device key lights will turn off after blink twice.

4. Factory reset

Press and hold pressed at the same time one of

device key    and  button. Then input number **9990** and remote will return to factory reset state, the light of all device key will turn off after blink thrice.

5. DEVICE CODE REMINDER

You can use this feature to check the code digits that is stored for a device. Follow these steps using the remote control:

Press the device button that you want once.

Press and hold  button and press at the same time one of numbers 1, 2, 3, 4.

Release buttons and the device light will blink as many times according to the number. If number is 0 then then light will blink fast 10 times.

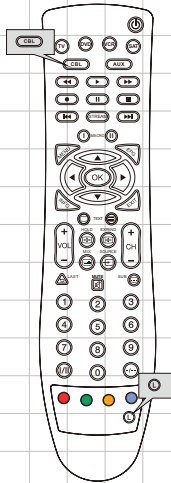

For example let's say the device code is 1029.

Press  and button number 1: the device light will blink 1 time

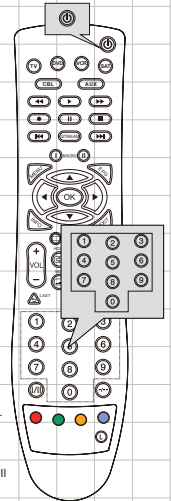

Press  and button number 2: the device light will blink fast 10 times

Press  and button number 3: the device light will blink 2 times

Press  and button number 4: the device light will blink 9 times.

Keys that can not programmed when using the Learn function feature

6. TV VOLUME CONTROL

Depending the device that you have the button  on the remote control, will control the volume of your TV.

If you want to enable it, press and hold pressed at the same time one of device key

   and  button.

Then input the command **9940** , the light of device button will light on , then press

the  button once to enable this function. If you want to disable this function, please input the command **9941** , after that the light of device button will blink twice then go out.

7. TRANSPORT KEY CONTROL

Through this function, under TV mode you do not need to switch remote control's mode to control **PLAY**, **REW**, **FF**, **REC**, **STOP** and **PAUSE** function of other devices, you can follow these steps as below to Enable or Disable this function: If you want to enable it, press and hold pressed at the same time **TV** button and **POWER** button. Then input the command **9950**, the light of TV button will blink twice, then press the device key that you want to control; If you want to disable this function, input the command **9951**, after that the **TV** button will blink twice then go out.

8. CHILDREN OPERATION LOCK FUNCTION

You can use this function to lock your remote to avoid children to operate the device;

You can follow these steps as below to Enable or Disable this function:

1. Press and hold the **OK** button about 7 seconds to enable this button, then the Led will blink twice and go out. Then you can not operate any functions except **LEARN** function and **DEVICE CODE REMINDER** function.
2. Press and hold the **EXIT** button about 7 seconds to disable this button, then the Led will blink twice and go out.

9. General INFORMATIONS

The remote can control up to six (6) devices , which include:

TV: Television

DVD: DVD and VCR, ect

VCR: DVD and VCR, ect

SAT: DVB-T,CBL,SAT (Satellite Receiver), Set-Top Box and STR(STREAMING, streaming Video, Streaming Media, etc), ect

CBL: DVB-T,CBL,SAT (Satellite Receiver) Set-Top Box and STR(STREAMING, streaming Video, Streaming Media, etc) ect

AUX: AMP(Amplifier),AUDIO,SOUND BAR, CDs, HIFI, Home Cinema

- a. Point the universal remote control at the infrared part of the device you need to control approximately 60 to 100 cm
- b. Do not leave flat batteries in your universal remote control, as they could leak and void your warranty. Always replace the batteries both of them at the same time, do not mix the old and new batteries or mix different battery types.
- c. When you throw away the old batteries, considerate the environment. Please consult your local council or recycle department, for nearest collection point.
- d. Do not drop or throw your universal remote control, as you may damage the unit and the circuitry inside.
- e. Do not let the remote control come into contact with any liquids.
- f. Use a dry cloth to clean your universal remote

12 Month Warranty

Thank you for your purchase from Kmart.

Kmart Austria Ltd warrants your new product to be free from defects in materials and workmanship for the period stated above, from the date of purchase , provided that the product is used in accordance with accompanying recommendations or instructions where provided. This warranty is in addition to your rights under the Australian Consumer Law.

Kmart will provide you with your choice of a refund, repair or exchange (where possible) for this product if it becomes defective within the warranty period. Kmart will bear the reasonable expense of claiming the warranty. This warranty will no longer apply where the defect is a result of alteration, accident, misuse, abuse or neglect.

Please retain your receipt as proof of purchase and contact our Customer Service Centre on 1800 124 125 (Australia) or 0800 945 995 (New Zealand) or alternatively, via Customer Help at [kmart.com.au](http://www.kmart.com.au) for any difficulties with your product. Warranty claims and claims for expense incurred in returning this product can be addressed to our Customer Service Centre at 690 Springvale Rd, Mulgrave Vic 3170.

Our goods come with guarantees that cannot be excluded under the Australia Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss of damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

For New Zealand customers, this warranty is in addition to statutory rights observed under New Zealand legislation.
