

# IDEA 9: COMPETITIVE FAMILY FUN

## Bring out a competitive family fave!

Can you believe Monopoly is celebrating its 85th Anniversary! Here are some tips and tricks to rule this family favourite.

### Tips and tricks:

#### Money Stack

Keep your Monopoly money in one stack (verses in neat individual piles) so your opponents won't be able to keep track of your cash flow.

#### Jail Time

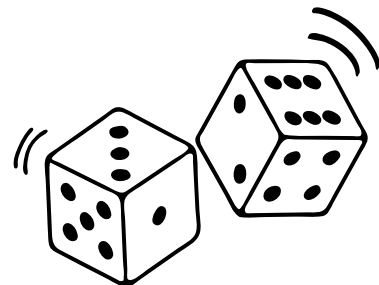

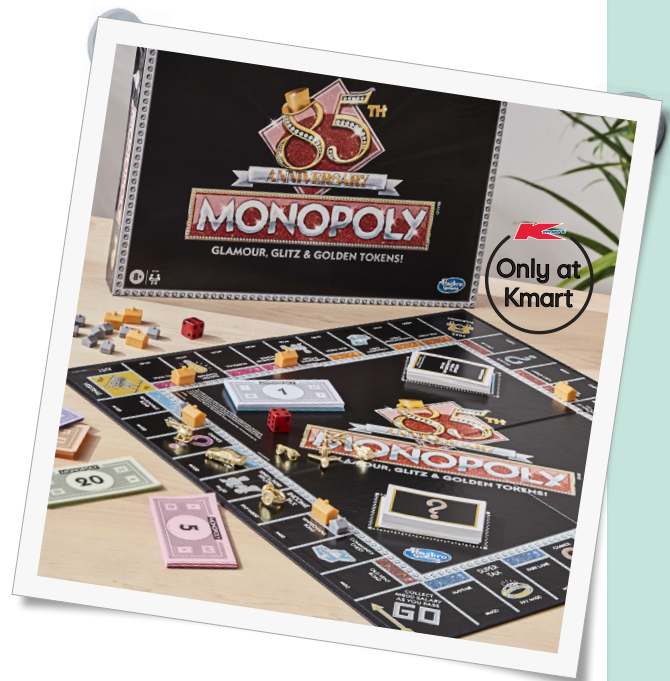

Jail is not the worst place to be! If you do find yourself behind bars, you can still collect rent from other players, avoid any unlucky Chance or Community Chest cards, and expensive payouts to your fellow players.

#### Token Favourites

We all have a favourite token. Play the game with yours to increase your luck!

#### Emergency Fund

Chance cards and Community Chest cards often reveal costs like doctor's fees, repairs, and taxes. Manage your money smartly throughout the game, to ensure you have enough cash on hand to pay these unexpected expenses.
