

size guide & how to choose the right bike

1. Stand with feet flat to floor, back against measure chart to determine your height.
2. Choose your bike to fit based on the chart.

measure your height & match your size

1. Stand in front of the height chart to best match your height to the correct bike size.
2. The correct size bike is essential for a safe and comfortable ride.

boxed or assembled

1. Choose your model of bike within your colour coded size range.
2. Choose either an assembled bike or a boxed bike by matching the number on the assembled bike to the number on the box.
