

Product Safety Recall

Childcare Stroller 'Grey' Sold at Kmart

Affected batch:

Model Number: 015264-314

PO Number: 17346881

Other batches of the product are not affected

Sold at Kmart from September 2019 to February 2020

Defect: The rear axle of the stroller can break, and lead to one of the wheels dislodging and the stroller becoming unbalanced.

Hazard: If the stroller becomes unbalanced and the child inside falls or hits the ground it could result in serious injury.

What to do: Stop using your stroller and register on the CNP safety website to organise a replacement axle and wheels.
